

CV GIUSEPPE AMICO

Giuseppe Amico graduated with a degree in electrical engineering from the University of Palermo, and completed a Masters in Innovation Management at the Sant'Anna School of Advanced Studies in Pisa.

He began his professional career at Piaggio Group in 1995 as Logistics Planning Manager, before moving into the role of Internet Services and Web Manager in 2000. He has been working in sales planning and logistics since 2006, starting out as Head of Commercial Planning and Distribution Logistics before progressing through various positions of increasing responsibility, until being appointed Head of Materials Management for the Group, a role he has held since 2009.
